

**“OUR WATER
BILL HAS TRIPLED.
WHO’S USING
IT ALL?!”**

LEO "THE LEAKER"

BORN IN 1972

AVE. THEFT: 600 GAL/DAY

=\$141/MONTH

[\$51 FOR WATER+ \$90 FOR SEWER]

BUSTED.

Chances are, if your water bill goes sky-high, a leaky toilet is the culprit. And because it may be silent, the best way to detect a leak is with dye tablets, which we give away free!

Fortunately, it's usually an easy fix. You may just need to tighten or replace a simple part. Call a plumber, or check out a how-to video here: conserveh2o.org

TIP: A new toilet can use 75% less water than an old one, saving 4.5 gallons per flush!

Other possible culprits?

Check for dripping faucets, indoors and out.

CASE CLOSED.
